Subject: Court of Justice of the European Union decision and the need to disclose vaccine purchase conditions

The Court of Justice of the European Union (CJEU) has concluded that the European Commission, led by Ursula von der Leyen, did not provide wide enough access to the vaccine purchase agreements concluded with COVID-19 vaccine manufacturers and that irregularities took place in the decision to conceal parts of those agreements.

The contracts the European Commission concluded with a number of multinational pharmaceutical companies by way of public-private partnerships involved billions of euros of public money, but failed to secure property rights over the scientific and pharmaceutical advances achieved.

The European Public Prosecutor's Office has an ongoing investigation into 'Pfizergate', which involves Ursula von der Leyen personally in direct negotiations with the Pfizer CEO to purchase vaccines.

Following the CJEU decision and previous queries that have gone unanswered, can the Commission urgently say:

What were the individual responsibilities of each member of the Commission, including President von der Leyen, in negotiations?
