

**Question for written answer E-002889/2024
to the Commission**
Rule 144
Moritz Körner (Renew)

Subject: Pagers

A few weeks ago, the pagers and walkie-talkies of Hezbollah fighters exploded.

1. Can the Commission indicate whether it considers that EU airport security systems would have detected explosives in these devices?
2. If the Commission has no information in this connection, what steps exactly has it taken so far to ascertain whether that is the case?
