Subject: Absorption of Recovery and Resilience Facility funds by Greece

Greece has secured significant funds from the Recovery and Resilience Facility in both grants and loans, aiming to support the green and digital transitions. However, it appears that progress in the absorption of these resources is showing serious delays, which raises concerns about the successful completion of the planned projects by the end of the programme.

In light of this:

1. What measures could the Commission propose to ensure faster implementation of investments and avoid loss of funds?
2. How does the Commission assess the effectiveness of the reforms undertaken by the Greek Government as prerequisites for the disbursement of funds?
