Question for written answer E-001470/2025/rev.1
to the Commission
Rule 144
Olivier Chastel (Renew)

Subject: Monitoring of EPOCH platform activities

Launched in 2021 in the wake of the Lisbon Declaration, the European Platform on Combatting Homelessness (EPOCH) aims chiefly to promote mutual learning on homelessness policies, strategies and action plans at national, regional and local level, with a particular focus on a housing-led approach and improving analytical data on homelessness.

Three years on from the platform's official launch,

what results have been achieved thus far (number of specific projects funded, outcomes obtained in the field, activities organised) and what are the next steps planned by the Commission to ensure that the target of 2030 is met?
