Subject: Activities of DG SANTE in Mercosur countries

Two studies in 2024 (DG(SANTE) 2024-8002 and DG(SANTE) 2024-8087) identified shortcomings in Brazilian slaughterhouses.

Would the Commission provide the following information for Brazil, Argentina, Paraguay and Uruguay in connection with pigmeat, beefmeat and poultry for the period 2021-2025:

1. How many and which slaughterhouses are authorised to export meat to the EU, and which slaughterhouses have had their authorisations endorsed, renewed or revoked?
2. In respect of which suppliers have shortcomings been identified, and whose authorisations have been revoked?
