Subject: EU support for associations infiltrated by the Muslim Brotherhood

A new French report¹ warns of Islamist infiltration (where associations are joined to change them from the inside and to convert them to the Islamist doctrine).

Back in 2021, for example, the Commission supported a controversial campaign promoting the hijab among young girls.

1. Which projects or associations funded by the Commission are currently known to have been infiltrated by the Muslim Brotherhood?
2. In the past 5 years, how much financial support has the Commission given to projects or associations that are now known to have been infiltrated by the Muslim Brotherhood?
3. When granting financial support from now on, how will the Commission first investigate whether there has been any infiltration by Islamist organisations such as the Muslim Brotherhood?
