

Question for written answer E-003321/2025
to the Commission
Rule 144
Maciej Wąsik (ECR)

Subject: Allocation by the Commission of an additional EUR 3 billion to EU Member States providing assistance to Ukrainian nationals since 2022

On 26 August 2025, during a conversation with journalists in Brussels, Commission spokesperson Markus Lammert said that under the Temporary Protection Directive of March 2022 (extended in August this year until March 2027), EU Member States are obliged to provide the necessary social security, health care and means of subsistence for those who do not have sufficient funds themselves¹.

In May, the Commission published a decision to allocate an additional EUR 3 billion to Member States hosting Ukrainian refugees².

In light of the above:

Which Member States have received financial support from the Commission from the start of the war in Ukraine until today, in what amounts and for which specific programmes?
