Subject: Guarantees for gender mainstreaming in the current multiannual indicative programme for Colombia and in the financing of the 2016 Final Peace Agreement under the Global Gateway strategy

1. In the context of the 2021-2027 multiannual indicative programme for Colombia and the investments provided for under the Global Gateway strategy, how will the Commission ensure that gender equality principles are effectively integrated into cooperation mechanisms, particularly with regard to the financing of the 2016 Final Peace Agreement?
2. Given the central role that the gender approach plays in the implementation of the 2016 Final Peace Agreement, what specific indicators and metrics has the Commission established to ensure that EU funding allocated to Colombia – including funding related to rural development, women’s political participation, transitional justice and the protection of women human rights defenders – effectively contributes to closing gender gaps?
3. Furthermore, what monitoring and accountability mechanisms are being considered to ensure that such funding has a real and measurable impact on women’s rights, especially in the areas most affected by armed conflict and drug-related violence?
