Subject: Billions promised to the US

At the end of July 2025, the Commission, through its President, made several promises to the US President. These concerned energy purchases worth EUR 750 billion and an investment commitment to the tune of EUR 600 billion.

1. Are these promises just verbal promises or are they promises laid down in a binding agreement?
2. What are the exact terms of this agreement?
3. These promises do not prevent the US from imposing a 15 % import duty on the EU. How can these promises be reconciled with the Commission's goal of strategic independence?
