

Question for written answer E-003681/2025
to the Commission
Rule 144
Piotr Müller (ECR)

Subject: Notifications by the Polish Government concerning the ‘Via Pomerania’ expressway

The ‘Via Pomerania’ is a planned expressway that will connect Ustka, Słupsk, Bytów, Chojnice and Bydgoszcz, creating an important new transport route in northern Poland. It is crucial for improving transport accessibility in the region, increasing road safety and reducing travel times, as well as for economic development and better connecting ports with the country’s main transport corridors.

1. Has the Polish Government asked the Commission to extend the transport corridors as part of the planned review of the TEN-T network, and has it informed the Commission of the inclusion of the ‘Via Pomerania’ expressway in regional transport plans?
