Subject: Missed deadline for submission of national social climate plans under the Social Climate Fund

The Social Climate Fund (created by Regulation (EU) 2023/955¹) requires that Member States submit social climate plans (SCPs) to the Commission in order to access financing aimed at mitigating the social impacts of carbon pricing of road transport and buildings (under the ETS2 EU carbon trading scheme), particularly for vulnerable households, transport users and micro-enterprises.

Given that the timely submission of these plans is a prerequisite for disbursement, delays or failures by Member States to submit could jeopardise the implementation of crucial measures to address energy poverty and transport costs.

EU Member States had a deadline of 30 June 2025 to submit their national SCPs to the Commission.

1. Can the Commission provide a list of all Member States that met the 30 June 2025 deadline?
2. Can the Commission list those Member States that have to date not yet submitted their SCPs?
3. Has the Commission taken any measures to follow up with Member States that missed the deadline in order to safeguard the objectives of the Social Climate Fund?
