

Question for written answer E-004329/2025
to the Commission
Rule 144
Per Clausen (The Left)

Subject: The Enforcement Directive and Denmark

Back in July 2021, the Commission launched infringement proceedings against no fewer than 24 Member States on the grounds that their national measures were not consistent with the Posting of Workers Enforcement Directive¹. In its answer of 26 June 2025², the Commission stated that at this stage there are ‘ongoing infringement proceedings’ against six Member States, including Denmark.

Can the Commission please answer the following questions:

1. What is the state of play regarding letter of formal notice No 2021/2057 of 26 January 2023 concerning Denmark’s implementation of Directive 2014/67/EU on the posting of workers, bearing in mind that although Denmark replied to the Commission’s reasoned opinion back in March 2023, it seems that, as far as Denmark is concerned, there have been no further developments in the case since then?
2. Furthermore, it is now more than a year since the Commission, in an answer dated 15 March 2024³, informed Parliament that ‘the Commission will decide on the next steps in the coming months’. When was a concrete decision taken regarding further steps in relation to Denmark?
3. As it is now more than four months since the Commission last stated that it was considering and assessing the Danish measures, has an assessment now been reached and communicated to Denmark? If not, when is this expected to happen?

Submitted: 4.11.2025

¹ Directive 2014/67/EU of the European Parliament and of the Council of 15 May 2014 on the enforcement of Directive 96/71/EC concerning the posting of workers in the framework of the provision of services and amending Regulation (EU) No 1024/2012 on administrative cooperation through the Internal Market Information System (‘the IMI Regulation’) (OJ L 159, 28.5.2014, p. 11).
