

Question for written answer E-004526/2025
to the Commission
Rule 144
Moritz Körner (Renew)

Subject: Heat-related deaths

1. How many heat-related deaths have been recorded annually in the EU and in the United States over the past five years?
2. How does the Commission explain the difference in the number or rate of such deaths between the EU and the United States?
3. What measures does the Commission consider necessary to reduce heat-related mortality within the EU, particularly in the light of climate change and the availability of air-conditioning?
