

**Question for written answer E-000821/2026
to the Commission**
Rule 144
Afroditi Latinopoulou (Pfe)

Subject: Implementation of Regulations (EU) 2018/1139 and (EU) 2017/373 at Aktion
airbase

Following a letter of reply from the Commission to EUROMIL, issues were raised concerning the provision of air navigation services at the military airbase of Aktion, which serves an increasing number of civilian flights.

According to relevant information, the military air navigation service provider has not been certified by the competent Civil Aviation Authority and the European Union Aviation Safety Agency is apparently aware of this. However, Regulations (EU) 2018/1139 and (EU) 2017/373 provide for obligations with regard to certification, oversight, adequate staffing and ensuring a high level of safety for providers serving general air traffic.

In view of the above, can the Commission answer the following:

1. Is it aware of the above?
2. Is all the above in line with existing EU law?
3. Does it intend to take measures vis-à-vis the competent Greek authorities to ensure the full implementation of the above regulations and of any other legislation applicable in this case, at military airbases serving civil air traffic?
