Question for written answer E-001756/2026
to the Commission
Rule 144
Maciej Wąsik (ECR)

Subject: DT Global contracts with the Commission between 2018 and 2025

Publicly available data in the Financial Transparency System show that, between 2018 and 2025, entities belonging to the DT Global group (DT Global IDEV Europe S.L., DT Global IDEV S.L.U. and DT International Development UK Ltd) received a total of EUR 235 million from the Commission for projects under various EU external instruments.

This included:

EUR 41.97 million under the DCI; EUR 26.85 million under the EDF;

EUR 14.90 million under the EIDHR; EUR 10.61 million under the ENI;

EUR 4.62 million under IPA III;

EUR 3.13 million under IPA II;

and smaller amounts under other instruments[1].

In light of the above:

1. Please make available the full list of all projects implemented by DT Global between 2018 and 2025, together with the amounts of funding provided for the implementation of those projects. For which specific projects were those funds allocated, and what amounts were involved?

2. Please provide a detailed breakdown of the EUR 41.97 million received by DT Global under the DCI. For which specific projects were those funds allocated, and what amounts were involved?

3. Please provide a detailed breakdown of the EUR 26.85 million received under the EDF. For which specific projects were those funds allocated, and what amounts were involved?

Submitted: 29.4.2026

[1] Unfortunately, publicly available registers do not contain detailed information on the specific projects the above funds were allocated to between 2018 and 2025, nor do they show the exact amounts involved. DT Global only publishes selected projects on its website, without specifying precisely under which EU financial instrument they were implemented or the amount of funding they received.
