Subject: Combating the Muslim Brotherhood's spread in the EU and Italy

A report published by the Israeli Ministry of Diaspora Affairs states that a number of organisations believed to be part of the Muslim Brotherhood's network (namely the Union of Islamic Communities in Italy, the Young Muslims of Italy, the Islamic Alliance of Italy and Association of Palestinians in Italy) are active in my country. These conclusions corroborate the findings of a May 2025 French secret service report entitled 'The Muslim Brotherhood and Political Islam in France'.

A number of investigations also show that individuals with ties to the Muslim Brotherhood are linked to the above organisations as well as political figures in the EU institutions and elsewhere, and that the Brotherhood enjoys direct and indirect access to European public funds through its affiliated networks.

I therefore ask the Commission:

Does it agree that it should establish a permanent European mechanism that is equipped with appropriate enforcement and sanctioning powers with a view to combating the spread of organisations linked to the Brotherhood by looking into their financial transactions and attempts at influencing Member State institutions and political parties?
