

**Question for written answer E-002979/2026
to the Commission**
Rule 144
Moritz Körner (Renew)

Subject: Dependency on LNG

1. Given all the energy deals that have been struck with the US and US companies, what is the Commission's estimate as to the percentage of Europe's liquefied natural gas (LNG) that will come from the US in 2030?
2. What is the Commission's assessment of this development, and what steps does it intend to take to prevent a situation in which the EU's dependence poses a threat to its sovereignty?
