

**Question for written answer E-003483/2026
to the Commission**
Rule 144
Jorge Buxadé Villalba (Pfe)

Subject: Immediate termination of funding to Morocco

In response to a recent parliamentary question, Commissioner Brunner acknowledged in July that the Commission plans to disburse EUR 160 million to Morocco until 2027 to support its national immigration and asylum strategy.

This figure adds to the almost EUR 10 billion transferred by the EU – according to the OECD and the Commission’s own sources – in direct grants, plus EUR 11.5 billion in favourable EIB loans and measures such as trade agreements.

However, Morocco continues to behave like a hostile actor against EU interests. Most recently, it carried out a hybrid attack against Spain, participating – according to police sources – in the invasion of the city of Ceuta, where there have been sexual and physical assaults against the civilian population.

In the light of this act of war:

1. Can the Commission confirm that all budget lines, including those under the migration strategy, destined for Morocco have been cancelled?
2. What legal mechanisms can the Commission rely on to recover funds already disbursed that clearly do not meet EU funding objectives?
3. What sanctions affecting special visas, trade policy and cooperation are being considered?
