Subject: EU financing of the Inter-American Commission on Human Rights

The Inter-American Commission on Human Rights (IACHR) is the principal body of the Organization of American States mandated to promote and protect human rights across the Americas through individual petitions, precautionary measures, thematic reporting, country visits and follow-up on recommendations. Its work underpins the region's inter-American human rights system and provides a critical avenue for victims where domestic remedies fail.

1. Given the EU's stated commitment to multilateralism and human rights, what has been the EU's financing of the IACHR each year since 2018, including amounts, budget lines/instruments (e.g. the European Instrument for Democracy and Human Rights, the Neighbourhood, Development and International Cooperation Instrument (NDICI) – Global Europe) and specific projects or grant agreements?
2. What EU funding for the IACHR is planned under the current 2021–2027 multiannual financial framework and NDICI, and are there prospects for additional or extended financing beyond the current multiannual financial framework?
