Question for oral answer O-000028/2025
to the Council
Rule 142
Antonio Decaro, Lídia Pereira, Annalisa Corrado, Emma Wiesner, Pär Holmgren, Catarina Martins
on behalf of the Committee on the Environment, Climate and Food Safety

Subject: UN Climate Change Conference 2025 in Belém, Brazil (COP30)

To achieve an outcome from the UN Climate Change Conference (COP 30) that meaningfully advances the agenda on mitigation, adaptation, finance and loss and damage, the EU needs to strengthen its climate diplomacy. What action is the Council taking to ensure that the COP30 in Belém, Brazil, concludes with significant progress, particularly in relation to:

1. raising the collective ambition in nationally determined contributions, in line with the goals of the Paris Agreement;

2. mobilising climate finance by the public and private sectors towards the goals agreed at COP29, including through innovative financing schemes and equitable burden-sharing mechanisms;

3. implementing and further strengthening the commitments and actions agreed in the first Global Stocktake, which forms part of the UAE Consensus?
