

**Question for oral answer O-000036/2026
to the Council**

Rule 142

Pierfrancesco Maran, Lídia Pereira, Heléne Fritzon, Marie-Luce Brasier-Clain, Emma Wiesner, Pär Holmgren, Lynn Boylan

on behalf of the Committee on the Environment, Climate and Food Safety

Subject: UN Climate Change Conference 2026 in Antalya, Türkiye (COP31)

Considering the outcomes of the UN Climate Change Conference 2025 (COP30) and the European Parliament's COP30 resolution – notably its call for a stronger commitment to transition away from fossil fuels and for concrete plans to phase out fossil fuel subsidies – what action is the Council taking to ensure that significant progress is made at COP31 in Antalya, in particular in relation to:

1. ensuring that all Parties submit and commit to ambitious and updated nationally determined contributions ahead of COP31 in line with the Paris Agreement, taking into account the outcomes of the first global stocktake;
2. supporting and encouraging global partners to deliver equitable contributions to climate finance, enhancing collective mitigation action and operationalising a robust framework for climate adaptation with adequate and predictable financial resources;
3. accelerating the implementation of the UAE Consensus on the phase-out of fossil fuels, in particular in the context of the ongoing oil and gas crisis triggered by the conflict in Iran, and what measures does it envisage in order to mitigate the impact of this crisis on the cost of living for the most vulnerable households?
