

**Priority question for written answer P-004641/2025
to the Commission**

Rule 144

Angelika Niebler (PPE)

Subject: EU customs policy and unequal treatment vis-à-vis Asian low-cost suppliers

To what extent does the Commission intend to ease the pressure on EU companies that have suffered financial losses as a result of the introduction of anti-dumping duties on candles originating in China, and what further measures, if any, is the Commission taking to eliminate the unequal treatment of EU importers vis-à-vis Chinese platforms such as Temu or Shein?
