E-002175/2024

Answer given by Mr Serafin
on behalf of the European Commission
(16.12.2024)

The European Council conclusions of 17 October 2024¹ reconfirm the EU's unwavering commitment to providing continued political, financial, economic, humanitarian, military and diplomatic support to Ukraine and its people for as long as it takes and as intensely as needed.

Since the beginning of the Russian invasion, the EU and its Member States have mobilised EUR 124 billion in support to Ukraine and its people (as of mid-November 2024).

This includes the following direct forms of support:

- EUR 47.8 billion of financial assistance from the EU
- EUR 12.2 billion in bilateral assistance from EU Member States
- EUR 45.5 billion in military assistance
- EUR 1.5 billion from the proceeds stemming from frozen and immobilised Russian assets.

Out of the financial assistance from the EU, EUR 35.7 billion is provided in the form of loans and EUR 6.8 billion in the form of non-repayable support, and EUR 5.3 billion is supported through EU guarantees.

EU Member States have so far provided EUR 45.5 billion worth of military assistance including EUR 6.1 billion covered by the off-budget European Peace Facility (EPF) instrument. This support includes EUR 362 million to finance the EU military assistance mission for Ukrainian armed forces. In addition, EUR 1.4 billion of the proceeds stemming from Russia's sovereign assets collected in 2024 have been allocated to the EPF.

As concerns the indirect costs to European economies, the EU has made available an estimate of up to EUR 17 billion through EU Member States to help people fleeing the aggression. The Commission introduced maximum flexibility so that the Member States can use unspent cohesion funds for this purpose.
