E-000211/2025

Answer given by Mr Dombrovskis
on behalf of the European Commission
(23.4.2025)

The Italian Recovery and Resilience Plan includes a reform of the student housing regulation coupled with an investment aimed at creating additional sleeping accommodations units (beds) for students (reform 1.7 of Mission 4, component 1). The Council Implementing Decision does not include a reference on single rooms. The Commission is working closely with the Italian authorities to ensure the effective implementation of the Italian Recovery and Resilience Plan, and regular dialogues are held to ensure compliance with its requirements, including those relevant to this reform and investment.

The Commission's Communication on a comprehensive approach to mental health¹ supports Member States in strengthening their mental health systems with 20 flagship initiatives and close to EUR 1.3 billion in funding opportunities from EU financial instruments. It focuses on supporting young people through initiatives such as the development of a prevention toolkit with the United Nations Children's Fund (UNICEF), and the provision of tailored capacity-building from the World Health Organization (WHO) to Member States.
