E-000515/2025

Answer given by Mr Jørgensen
on behalf of the European Commission
(19.3.2025)

The Commission does not comment on initiatives launched at project level.

To address the housing crisis and promote more affordable and sustainable housing, the first-ever Commissioner responsible for Energy and Housing will put forward a European Affordable Housing Plan¹. The Plan will focus on developing new EU initiatives, as well as supporting national, regional and local authorities to address structural drivers of the housing crisis and add value at the European level. Given that primary responsibility for housing lies with actors at national, regional and local level, the Plan will respect the subsidiarity and proportionality principles in its focus to develop policies to improve access to affordable, decent and sustainable housing and address the barriers.
