E-000832/2025

Answer given by Mr Síkela
on behalf of the European Commission
(29.4.2025)

In 2025, the Commission will focus on scaling up Global Gateway through the implementation of ongoing Global Gateway investment projects and the identification of new sustainable, high-impact investments that will further strengthen EU partnerships with third countries. The second Global Gateway Forum, to be held in June 2025, will also be a key moment in 2025 to showcase steps being taken to scale up Global Gateway.

The Commission will continue its active engagement with Member States, their cooperation agencies and development financing institutions to emphasise the necessity of building a Team Europe approach to scaling up investments. The Commission will also continue its work to enhance the coordination of its and Member States financial tools, including those of export credit agencies, and to increase collaboration with the European private sector through investment facilitation mechanisms and business matchmaking initiatives.

The Commission tracks and reports on EU support to Global Gateway investment projects through the annual report on the implementation of the EU's external action instruments, as well as providing information through a dedicated public website¹.

Global Gateway flagship projects which have been identified by the European Council as projects which showcase Global Gateway, are monitored by the Council's Working Party of Foreign Relations Counsellors. In addition, regular exchanges take place between the Commission and the European Parliament, notably the Committee on Development.
