**Question for written answer E-000843/25
to the Commission
Tomasz Buczek (P/E)
(26 February 2025)**

Subject: Recovery and Resilience Facility (RRF)

I would like to ask the Commission about the loans and subsidies granted to Poland through the Recovery and Resilience Facility (RRF):

1. What is the schedule for loan capital and interest payments for Poland?
2. What is the forecast for Commission loan disbursements to Poland?
3. What is the forecast for grant disbursements to Poland?

Submitted: 26.2.2025

**Answer given by Mr Dombrovskis on behalf of the European Commission
(7 July 2025)**

Each disbursement of repayable support (loan) has a maturity of 30 years from the date of disbursement. The repayment of the principal amount of a disbursement starts after a grace period of 10 years from the date of disbursement and is to be spread evenly in equal repayments over the remaining maturity of the disbursement.

In accordance with Article 24 of the regulation (EU) 2021/241 of the European Parliament and of the Council of 12 February 2021 establishing the Recovery and Resilience Facility ⁽¹⁾, the disbursement of the financial contribution (non-repayable support/grants) and, where relevant, loan, is provided in instalments.

Upon completion of the agreed milestones and targets indicated in the Council Implementing Decision on the approval of the assessment of the recovery and resilience plan of Poland ⁽²⁾, the Member State submits to the Commission a duly justified request for payment of grants and, where relevant, loan.

Such requests for payment may be submitted twice a year. The disbursement of grants and, where relevant, loans is made based on a positive assessment by the Commission of the satisfactory fulfilment of milestones and targets covered by the submitted request for payment, and on positive opinion of the Economic and Financial Committee of the Commission's assessment.

The amounts for each instalment for grants and loans are indicated in the Council Implementing Decision Annex ⁽³⁾, Section 2: Financial Support. The paid-out amounts are adjusted, deducting the share of pre-financing paid out already to the Member State on a pro-rata basis.
