The Council unequivocally condemns Hamas terrorism, including the heinous attack that Hamas carried out on 7 October 2023. The Council is concerned about any possible activities in the EU in support of Hamas- and has established a dedicated framework of restrictive measures against supporters of violent actions by Hamas and the Palestinian Islamic Jihad on 19 January 2024. 12 individuals and 3 entities are listed under this dedicated framework as of June 2025.

For data assessments regarding numbers of members of terrorist groups in the European Union, the EU Counter-Terrorism Coordinator relies on Europol and EU INTCEN, who may receive such data or estimates from each of the Member States on a voluntary basis, if Member States collect such data at national level.

No data or estimates on the number of Hamas members or sympathisers in the EU have been brought to the attention of the EU Counter-Terrorism Coordinator.

The EU Counter-Terrorism Coordinator focuses on the fight against terrorism. The EU Counter-Terrorism Coordinator does not monitor pro-Palestinian demonstrations.
