

EN
E-001787/2025
Answer given by Ms Roswall
on behalf of the European Commission
(30.6.2025)

The infringement procedure referred to by the Honourable Member¹ remains open, with an ongoing dialogue with the Spanish authorities.

In the context of this infringement procedure, Spain has provided updates on its progress towards completing the designation process of the Special Conservation Areas across the country, including in the region of Galicia. Spain has also reviewed the methodology for setting site specific conservation objectives and measures at the time of adoption and/or update of the management plans, in order to provide a structural solution to the concerns expressed by the Commission.

The Commission is currently assessing the replies provided in the framework of the dialogue it has engaged with the Spanish authorities.
