E-002747/2025

Answer given by Executive Vice-President Fitto
on behalf of the European Commission
(3.9.2025)

The Commission's monitoring of the implementation of the Italian national recovery and resilience plans (RRP) is based on the requirements outlined in the Annex to the Council Implementing Decision on the approval of the assessment of the recovery and resilience plan for Italy (CID Annex)¹.

With regard to the investment on the Development of Rapid Mass Transport systems in particular, targets M2C2-25bis, M2C2-25ter and M2C2-26 will be assessed in the context of the tenth payment request expected in 2026, while milestone M2C2-24 and M2C2-25 were assessed in the context of the fifth and seventh payment request. The Commission's assessment of the satisfactory fulfilment of those milestones and targets is based on the already mentioned requirements embedded in the CID Annex.

Overall, Member States' authorities, including the judiciary, are primarily responsible to ensure the compliance of the specific projects undertaken in the context of their national RRP with national and EU law, including on the matters related to working conditions.
