E-003047/2025

Answer given by Mr Dombrovskis
on behalf of the European Commission
(16.9.2025)

Following the latest disbursement of EUR 23.1 billion to Spain on 8 August 2025, representing the fifth payment under the Recovery and Resilience Facility (RRF)¹, the total funds paid out to Spain under the RRF now stand at EUR 71 billion, which is 44% of the total allocation.

In view of the 2026 implementation deadline, the Commission published a Communication ('NextGenerationEU - The road to 2026', 4 June 2025) providing guidance to Member States to review their recovery and resilience plans and prepare their final payment requests in 2026. Member States are invited to review their plans to include only measures achievable by 31 August 2026 and explore alternative measures to use their remaining financial allocations. The Commission is in constant contact with the Spanish authorities to prepare for the end of the RRF in 2026.
