Answer given by Mr Tzitzikostas
on behalf of the European Commission
(27.11.2025)

The co-legislators adopted the current trans-European transport network (TEN-T) Regulation on 13 June 2024¹. The Commission does not plan to revise the TEN-T Regulation soon and has no correspondence with the Member States concerning a possible revision.

The Commission prepared the last revision over several years and was in close contact with Member States and stakeholders during this process. At the time, Poland advocated for an extension of the European Transport Corridors, in particular along the Eastern border.

Poland has not informed the Commission about the inclusion of Via Pomerania expressway in regional transport plans.
