E-003779/2025

Answer given by Executive Vice-President Fitto
on behalf of the European Commission
(28.11.2025)

Under the Recovery and Resilience Facility (RRF), while the Commission assesses completion of the milestones and targets contained in the Council Implementing Decision of the Spanish Recovery and Resilience Plan (RRP)¹, the Spanish authorities are responsible for the implementation of the Spanish RRP. More detailed data regarding the implementation of all RRFs can be found on the RRF's scoreboard².

In the Communication of 4 June 2025 NextGenerationEU - The road to 2026³, the Commission recalled the 31 August 2026 deadline and called on all Member States to comprehensively review their RRFs as soon as possible to ensure all milestones and targets can be implemented by the deadline. In the Commission's report on RRF implementation⁴, Spain was one of the Member States whose milestones and targets were between 85% and 50% fulfilled and was thus recommended to increase its implementation pace.

Member States are encouraged to explore all available options to simplify their plans and safeguard their allocation without reducing their level of ambition. The Commission is in constant contact with the Spanish authorities to ensure a successful implementation of the RRF until August 2026 and accelerate the rhythm of implementation of all measures.
