(28.1.2026)

The Commission does not intend to publish the contract concluded with DT Global Europe, its annexes and attachments, nor the final report, as these documents contain personal data and commercially sensitive information which are protected from public disclosure.

The award of the contract followed an evaluation based on the most economically advantageous tender, applying the best price-quality ratio. The assessment of technical quality focused on the proposed organisation and methodology, as well as the profiles of the key experts, in line with the applicable rules for the selected procedure¹.

The Commission shares key information, such as award data, through its Financial Transparency System².
