E-004497/2025

Answer given by Mr Jørgensen
on behalf of the European Commission
(4.2.2026)

The Commission's priority is to implement the Energy Performance of Buildings Directive¹ (EPBD) and to support Member States in their transposition by 29 May 2026. The Commission published guidance in June 2025 to support implementation, including on infrastructure for sustainable mobility². The Commission will continue assessing potential barriers to implementing the EPBD and consider ways to address them without questioning the objectives of the Directive.

The Commission remains open to dialogue with national authorities and relevant stakeholders to further clarify the relevant provisions of the Directive.

¹ Directive (EU) 2024/1275.
