E-004799/2025

Answer given by Mr Dombrovskis
on behalf of the European Commission
(12.2.2026)

The full list of investments and reforms that Spain committed to undertake is set out in the Annex to the Council Implementing Decision of 13 July 2021 on the approval of the assessment of the recovery and resilience plan for Spain¹.

The Commission identified the actions concerned by the question as potentially being part of target 9 which completion is planned by Q2 2026 and could be part of payment request seven which has not been submitted yet². As a result, the Commission services have not received or examined evidence as regards this project, nor disbursed any funds. Additionally, the Commission services have no assurance at this stage that the mobility project in Logroño will be proposed by Spain as eligible for Recovery and Resilience Facility (RRF) funding under this target.

Should Spain put this project forward as contributing to the fulfilment of target 9, the Commission would assess the target against the requirements set out in the Annex to the Council Implementing Decision (CID). In the context of a payment request, shall the Commission find that one or more targets are not satisfactory fulfilled, there is a possibility of adopting a partial payment suspension in line with the provisions of Article 24(6) of the RRF regulation³. If as part of the seventh payment Spain submits more projects than those required by target 9 in the CID, the non-compliance of one with the requirements of target 9 in the CID would not automatically lead to the non-satisfactory fulfilment of the target.
