E-000954/2026

Answer given by Executive Vice-President Fitto
on behalf of the European Commission
(4.5.2026)

The Commission's monitoring of the implementation of the Italian national recovery and resilience plan (RRP)¹ is based on the requirements outlined in the Annex to the Council Implementing Decision on the approval of the assessment of the RRP for Italy².

With regard to the investment on the development of rapid mass transport systems in particular, milestone M2C2-26, concerning the issuance of completion certificates related to the activities supported by the investment, will be assessed in the context of the tenth payment request expected in 2026, while milestone M2C2-24 and M2C2-25 were positively assessed in the context of the fifth and seventh payment request.

Overall, Member States' authorities must ensure compliance of the specific projects undertaken under their national RRP with applicable national and EU law, including on the matters related to working conditions.
