E-001112/2026

Answer given by Mr Dombrovskis
on behalf of the European Commission
(21.5.2026)

Eurostat publishes data on total annual financial assets and liabilities of the total economy, as well as on non-financial assets by detailed asset type, for all Member States, starting from 1995. The data are also available by institutional sector. All the necessary elements are therefore available for users to combine the data and compile a complete balance sheet for the economy. The data follow the conceptual requirements of the European System of National and Regional Accounts (ESA 2010)¹, which are followed by the Deutsche Bundesbank.

Eurostat publishes data on total annual financial assets and liabilities of the total economy², as well as on non-financial assets by detailed asset type³, for all Member States, starting from 1995. The data are also available by institutional sector.

¹ Regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (OJ L 174, 26.6.2013, p. 1, ELI: <http://data.europa.eu/eli/reg/2013/549/oj>).
