Answer given by Mr Hansen
on behalf of the European Commission
(13.11.2025)

The Commission recognises the vital role of agriculture in Campania's economy and is aware of the challenges faced by farm businesses in completing investments under the Campania Rural Development Programme (RDP) 2014–2022.

Since the RDP are implemented under the share management mode, the decisions on the revocation or amendment of sanctions imposed by the national authorities to farmers under the RDP fall within the competence of the Member State and its regional authorities. The Commission may, however, provide guidance and support to help ensure that the programme's implementation is consistent with EU law and objectives.

Regarding the extension of deadlines for reporting and expenditure, the legislation¹ sets the final eligibility date for payments under the 2014–2022 programmes on 31 December 2025.

The Commission remains committed to supporting the authorities in Italy in needed administrative actions for ensuring investments projects are completed on time, the allocated EU funds are used effectively and in compliance with the applicable rules.
