Justification

This amendment aligns directly with the European Parliament resolution adopted on 17 September 2026 on an EU health workforce crisis plan: sustainability of healthcare systems and employment and working conditions in the healthcare sector (2025/2062(INI)). The resolution identifies Erasmus+ as a vital instrument to address workforce shortages. In particular, paragraphs 4 and 58 call for promoting cross-border mobility and increasing EU funding for healthcare education, training, recruitment, retention, and innovation, lowering entry barriers to attract young talent.
